

Area	Action
Energy	Monitor and reduce the amount of energy we use. E.g. E-Rangers to check classrooms have switched lights off when not in use, whiteboards off when not in use etc. Children to be made aware of how we can reduce our energy consumption around school and at home.
Water	No immediate action required.
Bio-diversity	We would like to see more greenery around our school, including inside the school. E.g. more pot plants in classrooms and other areas.
Schools grounds	Recent improvements have been made. No action required.
Healthy living	No immediate action required.
Transport	Traffic outside of the school is an issue as it gets very busy and potentially dangerous. We would like to encourage more children to walk to school (walking bus) and leave cars at home.
Litter	No immediate action required.
Waste	We have decided that we need a more efficient waste disposal system in school and have therefore decided to draw up a weekly rota system to collect recycling. We would like to see paper recycling bags in all rooms across the school. We are also going to address food recycling in the near future.
Global citizenship	No immediate action required.
